

ENVIRONMENTAL POLICY STATEMENT

Quantum Controls Limited recognises that its activities impact upon the environment both through its internal operations and through its influences and effects on the wider community. We demonstrate continuous improvement in Environmental matters by our ongoing accreditation ISO14001:2015+A1:2024 It acknowledges a responsibility for, and a commitment to, protection of the environment (i.e. pollution prevention) at all levels. We will comply fully with environmental legislation as well as the requirements of Interested Parties and in addition are committed to continued efforts to: -

- Promote environmental policies and practices in all of its client organisations
- Increase awareness of environmental responsibilities among all employees
- Minimise waste and harmful impact, and develop and operate environmentally sound waste management procedures
- Promote a purchasing policy that will give preference, as far as practicable, to those products and services that cause least harm to the environment
- Avoid wherever practical the use of environmentally damaging substances, materials and processes
- Promote the efficient use of energy and water among both employees and clients
- Promoting a culture of continuous improvement based upon the company's stated objectives and our ISO 14001:2015+A1:2024 accreditation.

Air Quality and Climate Change Management Policy - New Focus:

- Reducing greenhouse gas emissions alongside traditional air pollutants.
- Encouraging the adoption of renewable energy and electric vehicles.
- Implementing stricter emissions standards for industries.
- Promoting energy efficiency in buildings and transportation.
- Monitoring and reporting progress on both air quality and climate change targets.
- Engaging stakeholders in developing and implementing climate action plans.
- Raising public awareness about the impacts of air pollution and climate change.
